

Pre-Surgery Instructions

The night before your pet's surgery:

- Withhold all food and treats after 9:00PM
- Water can be offered at all times

The morning of the surgery:

- Continue withholding food
- Water can be left down unless otherwise instructed
- If your pet takes any morning medications, vitamins, etc., withhold the morning doses unless otherwise instructed.

These instructions are important because they help reduce the risks to your pet. Every surgery is different. If you've been given alternative instructions for this procedure by our staff, follow those. And please call us if you have any questions.

If glitches arise, such as forgetting to pick up your pet's food dish, please inform our staff. With all the information, we can do a better job of keeping your pet safe.

We will call you the day before your scheduled surgery appointment to confirm the appointment. In the meantime, please don't hesitate to call us with any questions about your pet's health or surgery.
